---

1. Call to Order – Jason Sampson
2. Discuss Table proposal – Jason Sampson  
SEC brought up the following concerns for Madison Armstrong to address before deciding on funding:
  - a. What is the sustainability component of this proposal and what will be the educational component?
  - b. How will waste be managed in this area? There is potentially a departmental fee associated additional locations.
  - c. What do you think about the primary usage (summer) being associated with the time of year with fewest students?
  - d. How do you address the need for shade?
  - e. Would you be okay with a partial funding or a different type of table?
3. Discuss 3D filament proposal – Jason Sampson  
SEC approved funding \$4,095 for this project under the stipulation the following questions are addressed:
  - a. Where will the process take place and will this space be allocated or dedicated to the process?
  - b. Please investigate the potential use of waste 3D printed items as a feed stock.
  - c. Verify outlets for filament.
  - d. What is the continuity of this program after your graduation?
  - e. Create educational information to assist in collection of recycled plastic bottles at specific locations.
4. Discuss Bike Rental proposal – Jason Sampson  
SEC brought up the following concerns for Philip VanDevanter to address before deciding on funding:
  - a. Please look into the potential of purchasing refurbished bikes.
  - b. Jason will work with ORC to find true cost of running this program.
  - c. SEC would like to allow the new Green Bike program to be established before beginning making a decision and determine if selecting off campus locations for bike drops could potential be an alternative.

- d. SEC would like Jason to reach out to determine if there is a potential community partner or help support proposal.

Jason will continue to provided updated information about projects to SEC.

***NEXT MEETING: To be decided***
